# WEL CARE

Home for Aged, Disabled And Patient Care

*Home Nursing Services & Training Centre®*

**W**el Care Home Nursing Services Started in the year 2012. Providing nursing care services at door steps of the patient. Now we have started home for aged disabled and patient care initially with 10 beds. The mission is one to care helpless and needy. We guarantee "Compassionate care from the heart" to our patients.

We care, teach and serve them with love, kindness, concern, comfort and respect for bringing happiness in their lives, we create a tradition in caring the distressed and the disabled one.

**"CARE IS OUR PASSION"**

## NATURE / OBJECTIVES

- We engage in service providing Medical nursing services / Nursing Services to the needy people.
- We providing services ranging from skilled nursing and rehabilitative therapy to hospice care and hospice care for patients, families, seniors citizens and health care professionals in the communities' service.
- We provide a variety of services including disease management, post-surgical care and wound care and manage with coordinates and guided the patients overall plan of care.
- The licensed physiotherapists have a depth of experience in helping patients recover from fall injuries, joint replacement surgeries, and stroke related disabilities. Physiotherapist will assist the patient in learning how to restore function by training on gait, use of cane, walker, wheelchair, artificial limb, energy conservation, and return to work status.
- We take care & provide helping hand to disabled, old age, bedridden and critically ill patients.
- To avoid extra unnecessary expenses and hospitalization.
- We will provide nursing care as per your doctors instruction and advice.
- In critical condition we provide help like ambulance, hospitalization
- We provide custodial care and assist depending on patient condition.
- Fearless satisfactory health environment to the patient and relatives in their ill health condition.
